

Date \_\_\_\_\_

Dear Parents,

Your violinist has received a new practice chart.

I would like your help in encouraging your violinist to practice his/her violin!

I am the coach and your child is the player. The week following the lesson it is up to the violin student to teach himself/herself the information I have presented him/her at the lesson.

Coaching without practice will not bring the result we desire – an outstanding violinist.

Please encourage him/her to keep the practice chart filled with hard working minutes so he/she can earn his/her achievement stickers and rewards.

I am asking you to sign and return this paper with any comments you want to share.

Respectfully,
